TIDAL LOANS

TIDAL LOANS LLC

Sales Playbook

V 5/1/2025

Our Objective

To provide our clients reliable capital, and consistent service daily. While having fun doing it!

Table of Contents

AS YOU READ THROUGH THIS PLAYBOOK IT'S IMPORTANT

1. **Review all hyperlinks:** Click on each link and thoroughly read the content.
2. **Take notes:** Jot down any key points, observations, or questions.
3. **Follow up:** Ask any questions to a team member for further clarification.

Mission and Background

Mission Statement

TIDAL LOANS is a company headquartered in HOUSTON TX with lending capabilities nationwide. The company's mission is to consistently build long term partnerships and to help our clients significantly grow their real estate businesses by being easy to deal with and extremely responsive.

Core Values

1.Team Player
2.Integrity- dog
3 Speed
4 Resilient
5 Communicative

🌟 **Team Player:**
Support team members and work toward shared goals. Prioritize collective success, offer help, share knowledge, and celebrate wins together. Teamwork is our foundation for achieving more.

🤝 **Integrity:**
Act ethically and build trust by being honest and reliable. We value relationships built on trust, ensuring we are truthful and dependable in every interaction. (“Be the person your dog thinks you are!”)

⚡ **Speed:**
Deliver results efficiently without sacrificing quality. Stay organized and proactive to meet tight deadlines while maintaining high standards. Speed with precision is our goal.

💪 **Resilient:**
Overcome setbacks with a positive attitude. Embrace challenges as opportunities for growth, responding to adversity with determination and optimism.

📢 **Communicative:**
Keep clients, vendors, and teammates up to date promptly. Clear, timely communication builds trust and ensures alignment toward shared goals.

Company History/Story

TIDAL LOANS was founded in 2016 by co-founders ND Kalu and Cheta Ozougwu (Cheta actually interned for ND while he was a student at Rice University). A colleague of Cheta reached out to him in hopes of securing a loan for $450,000.00 while using a property he owned in Royal Oaks as collateral. Once the partners were able to confirm the property did not have any liens and the value was north of $1,000,000.00, the loan was made. Needless to say, principal and interest payments were paid in full and a company was born! Both partners continue to actively invest in real estate while running TIDAL LOANS LLC.

History Highlights

- **Cheta interned with ND in 2010 and learned more about investing in real estate. (one of the reasons today why we bring in Rice interns each summer to give back)**
- **Tidal Loans Founded in 2016 by ND and Cheta**
- **$12M in loan originations volume in 2017 lending only in Texas**
- **2018 begins to lend nationwide, doubling loan volume as Private Equity Firms and other institutions begin to notice Tidal Loans and partner with us to purchase our loans.**
- **2023: Launched Tidal Mortgage Fund, a Real Estate Debt Fund**

Team

Leadership

NDUWKE KALU

Is a Co-Founder of Tidal Loans where he is involved in all loan origination and credit approval activities. Mr. Kalu has deep expertise in real estate investment, valuation, and management of residential and commercial properties. Mr. Kalu is also involved in the strategic leadership and marketing of the Company.

Mr. Kalu has over twenty years of business leadership and real estate experience. He is the CEO of Tidal Property Management, a Houston-based real estate brokerage that specializes in managing residential and commercial real estate assets. Tidal Property Management was founded in 2002, to acquire, rehabilitate, and manage homes, condos, and apartment complexes throughout the Greater Houston area. Under Mr. Kalu's leadership, Tidal Property Management currently owns and manages hundreds of properties.

Mr. Kalu has extensive experience in the valuation, rehabilitation, managing, and disposition of real estate assets in multiple Texas markets. Mr. Kalu played in the National Football League for 12 years for the Houston Texans, Philadelphia Eagles, and Washington Redskins. During this period, he began his career in residential real estate investment. He has earned a Bachelor of Arts degree in English from Rice University. Mr. Kalu is on the board of directors for the Harris County Improvement District 23, and is a member of the San Antonio Sports Hall of Fame.

CHETA OZOUGWU

is the Co- Founder of Tidal Loans LLC. Mr.Ozougwu is involved in the strategic leadership , underwriting and vision of the Company.

Mr.Ozougwu has over ten years of leadership and real estate experience. Mr. Ozougwu's well rounded experience includes real estate acquisition, rehabilitation, development, and lending across the SFR and Multi Family asset classes. Over the course of his career Mr. Ozougwu has successfully completed over $100M real estate transactions.

Mr.Ozougwu played in the National Football League for 4 years.. During this period, he began his career in residential real estate investment. He has earned a Bachelor of Arts degree in Economics from Rice University and is a board advisor for the E.N.U. F project.

- **Gmail**- Email
- **Aircall**- Phone System

Getting Familiar With Hard Money/Private Money Loans

What is Hard Money/Private Money

Hard money or Private Money (many ppl in the industry have different opinions on what the difference is, but in our eyes it is the same) is any lender (business or individual) who lends money on their own terms.

The lead principal is underwriting focused on the asset, not the borrower's personal income to repay: (the hard in "hard money" refers to lending on a hard asset like real estate). We do take into account the borrower's credit score, liquidity, and experience as we consistently reference the L.C.E.T acronym. Location, Credit, Experience and Type (of structure) are the main characteristics that affect our lending terms. The main focus of our underwriting is in determining the feasibility of the borrower's exit strategy:

Rehab Loans: Does this deal make sense? Will the expected ARV (after repair value) support a profit after all expenses? If yes, we like the deal.

Rental Loans/Rehab to Rent Loans: Will this property, once stabilized, be able produce enough income to adequately cover our mortgage payment (PITI=principal interest taxes and insurance). If the answer is yes, we like the deal.

Click **HERE** to view a library with videos and literature to get you familiar and comfortable with the basics and lingo of the hard money industry

NEW HIRE ONBOARDING ROADMAP

This is just a guide.

Day Range	Tasks
Days 1–3	System logins, intro call w/ management, orientation video links, understand the takeout matrix, shadow 6 AE calls,
Days 4–7	Read entire sales playbook, complete: takeout matrix quiz, FAQ quiz, 5 recorded call reviews, shadow a couple ae calls
Days 8–10	Price 3 live deals w/ mock term sheet review call, practice call scripts with team member
Days 11–14	Handle 1 inbound chat per day, lead one real client call with AE support, complete full AE quiz

Role- Specific Overview AE vs LOA

Loan Officer Assistant (LOA) CLICK HERE FOR A IN DEPTH BREAKDOWN OF THE RESPONSIBLITIES

🔹 Sales & Lead Management

- **Inbound Calls**: Answer calls, qualify leads, transfer to AEs, and log info in HubSpot.
- **Lead Intake**: Create contacts/deals in HubSpot, assign to AEs, create folders, and input into pricing tool.
- **Web & Chat Leads**: Respond to new inquiries quickly, qualify, and follow up via phone, email, or text.
- **General Inquiries**: Capture info, answer basic questions, and schedule follow-ups.
- **Social Media & Email**: Monitor Vista Social and info@ inbox, respond or forward as needed, and log leads in HubSpot.
- **Missed Calls/Voicemails**: Return calls ASAP and document outcomes in HubSpot.
- **Follow-Ups**: Track “Term Sheet Sent” leads, follow up consistently, and escalate to AEs if interest is high.

🔹 Processing Support

- **Application Stage**: Call borrower after app link is sent, confirm submission, and update Nova, request docs needed for valuation ordered.
- **Valuation Stage**: Follow up 2x/week on appraisal payment; ensure appraisal gets scheduled.

- **Underwriting Help**: Support processors by reaching out for missing docs or updates.

🔹 **Team Coordination & Admin**

- **Internal Updates**: Keep AEs and processors informed via Nova and HubSpot.
- **Escalation**: Route complex questions or complaints to AEs or managers.
- **System Accuracy**: Keep HubSpot stages and Nova notes up to date.
- **Admin Tasks**: Schedule calls, send invites, assist with projects as assigned.
-

Account Executive (AE)

- Revenue-producing client-facing role
- Owns sales pipeline, pricing, relationship management, client education, follow-up
- Expected KPIs:
  - $2.49M funded/quarter
  - 4+ deals closed/month
  - Call activity: 25+/day

:

📝 SOP – Loan Officer Action on "Withdrawn File" Email

Trigger: Loan Officer receives an email notification:

"{borrower.first_name}, We have withdrawn your file at {property.address}"

Purpose:

To ensure all withdrawn deals are properly recorded in HubSpot with accurate ***Closed Lost*** *details for reporting and tracking.*

Steps:

1. **Locate the Deal in HubSpot**
    - Log into HubSpot.
    - Use **borrower name** or **property address** from the email to find the deal record.
2. **Update Deal Stage**
    - Confirm the deal reflects the withdrawn status in Nova.
    - Ensure HubSpot shows the deal as **Closed Lost** (update stage if needed).
3. **Complete Required HubSpot Fields**
    - **Why Did We Lose This Deal?**
        - Select the most accurate reason from the dropdown (e.g., *Borrower unresponsive, Choose another lender, Credit profile, Property type, Location*).
    - **Closed Lost Reason**
        - Fill in specific details about why the deal was lost (1–2 sentence explanation or key note).
4. **Save & Confirm**
    - Click **Save** to ensure updates are recorded.

TYPES OF LOANS WE FUND

Click **HERE** to see a list of loans we FUND

🧠 Loan Program Cheat Sheet (Quick View)

- **UNDERSTAND THE INVESTOR MATRIX. (VERY IMPORTANT)**
    - It will give you a good understanding of our loan programs, high level guidelines, and the different takeouts we sell to.
        - Click here to view the **MATRIX**.

Account Executive Tidbits

To become the best account executive you can be to serve your clients and reap the most rewards, you must focus on the following:

- **Understanding all of our loan programs and guidelines**: Can't sell what you don't know. Know the sales guidelines and how to look for answers.
    - Learn guidelines after you understand the **MATRIX**.
- **Using ALL automation tools to be more efficient:** This is where hubspot and integrations come into play.
- **Manage your day, don't let your day manage you**: Time blocking. Ex. Account Executive Schedule attached **HERE**
    - Prioritizing your day, see below: (by order of importance)
        - **Deals priced and sold:** Aim for same day, no more than 24 hours
        - **Prospecting Tab:** HubSpot -> Workspace -> Prospecting: Completing any tasks assigned to you; as you use sequences, completing your tasks will take care of follow-ups, new leads, etc.
        - **Calling new leads, sales calls back:** Aim for same day, no more than 24 hours
        - **Prospecting for new business:** Outbound lead generation, nurturing relationships, marketing, social media, wholesale, broker, real estate relationships

        - **Follow up:** Pre-processing deals, leads
        - **Follow up:** Current processing pipeline of loans

- **Don't hide from issues**: Attack problems early and communicate often
- **Always be learning:**
    - Digging in to guidelines
    - Subscribing to educational sites such as AAPL, scotsman's guide,etc.
- **Always be marketing:**
    - Staying active on Social media, REI groups, Focus on adding value not selling.
    - Networking events, building relationships
    - Letting everyone know what you do
    - Taping in your S.O.I (sphere of influence)

Tidbits/Keys to Success

- **ALL LEADS ARE IMPORTANT:** From a chat to a hot loan quote received lead
- CALL LEADS IMMEDIATELY: Call a lead within 24 our getting the tasks assigned
- **Follow up:** Each lead/deal should receive a call at least 3X before closing the deal out.
- **All leads should be worked with notes:** Each lead (internet, loan quote, sales call, offline lead, etc.) must be contacted, with a brief summary of the outcome added in the HubSpot notes section.
- **Deals in Processing:** Each time you contact the borrower, add a summary of the call in our LOS (NOVA).
    a. Put notes in LOS->Notes and Emails-> Pipeline Notes
- **Sales Call Leads:** Leads are routed to the AE via round robin. If unanswered, the receptionist will assign the contact as a to-do in Aircall.
    a. **Follow-Up**: Call the client back promptly. If there's no answer, leave a voicemail **and** send a text to determine the best time to reach them.
    b. **HubSpot Entry**: If the contact is not in HubSpot, search for their phone number. If it's not found, create a new contact entry in HubSpot. Click **HERE** for details on how to create a contact.

- **Client Info Entry:** For every sales lead not already in HubSpot, obtain the client's email, phone number, and name, and enter it as a new contact in HubSpot if intake has not already done so.
- **Priority on Term Sheets:** Aim to send term sheets the same day, as response rates are 4x higher with same-day delivery than with a 1-2 day delay.
- **Proactive Follow-Up:** Don't hesitate to reach out to clients more frequently than HubSpot's sequence suggests, especially for high-priority deals (e.g., a hot deal in contract).
- **Sequence Management:** Remove a client from a sequence if they call you. If they reply to a sequence email, they will be automatically unenrolled.
- **Voicemails & Emails:** Always leave a voicemail, and follow up with an email after every voicemail.
- **Mandatory Sequence Use:** All team members must use sequences for follow-ups.
- **Workspace -> Prospecting Tab:** Use the Prospecting tab to plan your daily activities when prospecting. Watch a quick video on it **HERE**. It will show you
    a. **Tasks**: Due, overdue and upcoming
        i. **POWER HOUR**- 1-2 HOURS KNOCKING OUT CALLS STRAIGHT NOTHING ELSE
    b. **Tasks**: From Sequences
    c. **Suggested** activities
    d. Leads: New leads to reach out to.
- The level of importance is from top to bottom. Most important from the top
    a. **Tasks:** that are due
    b. **Sequences** to- do (ex Term sheet follow up tasks)
        i. **Sequence Utilization:** Use sequences to stay on top of tasks needed for nurturing and following up with leads.
        ii. **Suggested Activities:** Focus on reaching out to new contacts, responding to unanswered emails, etc.
        iii. **Lead Nurturing:** Prioritize contacting new and attempted leads who have not yet submitted a deal. The goal is to nurture these leads until a deal is initiated.
- Click **HERE** to view what it means to Fully scrub a file/contact

Takeouts

Tidal Loans Business Model: We balance sheet some loans (hold them) and sell others to replenish our balance sheet and continue lending. If a loan aligns well with Tidal Loans' credit criteria, we aim to keep it internally. Selling loans is a common practice in the industry.

Typically Tidal Loans will hold only short term loans (less than 12 months in term) in markets approved by Tidal. Those markets are in the Bridge sizer under the tab **Tidal MSA"s**

All long term loans or loans $500K+ we sell off to private institutions/insurance companies, also known as takeouts.

Takeout Matrix

Please click **HERE** for a list of takeouts we sell loans to and high level guidelines/ comparisons.

TAKEOUTS GUIDELINES AND QUIZ

Takeout Guidelines Quiz:

- Each AE must read through the takeout guidelines and complete the quiz. Ping management once the quiz is done, and review your answers before discussing them with management.
- *It is very important as an AE that you understand the guidelines. You will never remember everything, and guidelines do change. However you need to understand the terms, lingo, and where to find answers.*

Sales Cycle

Seller- Tidal Loans Account Executive	**Buyer**- Potential Borrower/Client
Identify Prospect: 1.Online inbound lead 2. Inbound Call 3.) Offline lead 4.) Outbound lead	
Connect with prospect: 1. Initial Call	Schedule Meeting

2.Follow up email 3.) Schedule Meeting	
Discuss prospect's deal. Educate the prospect about one of our loan programs that fits their needs. (may happen on the initial call) **Send out a term sheet for review.** Call to walk through it, answer any questions/objections.	Explore our loan programs Review terms. Buyer may need to discuss with partners
Place client in a sequence:	
Follow up Follow up Follow up	Reviews with partners, compare other loan quotes
Follow up: May request competitor quote for management to review and beat	
Gets better pricing from management/takeout exception	
	Signs Term Sheet
Push file to processing->Complete tasks in nova	
Processor intro call to borrower	
AE is there for support until file closes. Checking in with clients in processing 1x per week or as needed	

Pricing Out Loans

Pricing out a deal is a critical step. Once you have the loan quote and necessary information, you're ready to price the deal for the borrower

Click HERE to view how to:

1. Choosing the correct sizer for each loan purpose (essential for accuracy).
2. Correct portal/website to go to get the rate/ltv. When would you need to go to a takeout portal:
    a. Pricer bot: Confirming the bot priced it out correctly
    b. Pricer bot: Bot did not price out the deal, so you have to manually price it.

Click **HERE** to get familiar with the overview of pricing out a loan manually.

Click **HERE** for tidbits to know before sending out a term sheet the pricer bot priced

Click **HERE** for notes on how to price a loan when the source comes to you directly (email, phone, social in person)

LOCKING DSCR LOANS AND REPRICING

From the time that a loan is priced by the AE, signed, and then have docs in to submit to UW, the interest rate may have increased or decreased. We do not have any control of the pricing/market, however we do have control of when we relay to the borrower when they can lock a loan or when the loan is locked. Communication is the key! This process will discuss

- When Processors should communicate with AE"s to reprice a deal
- Items that can change the rate:- When verified who is responsible for updating it and where:
- Locking a DSCR loan- When we can do so, how, who is responsible for doing so, and how we relay it to the borrower.
- Repricing a DSCR loan

WHEN PROCESSORS SHOULD EXPECT AE'S TO REPRICE

Valuation Change: (expect communication from AE's if)

- **15% lower:** If as-is, arv, or rental comps come in 15% or lower than the term sheet

- **Minimum appraisal:** Does not meet the minimum appraised amount per takeout guideline
- **Adverse items:** As always communicate if you find any adverse items on the appraisal, rural, zoning issues, etc.
- **Cap on Leverage:** Bridge: Loan amount caps us on ARV/or LTC ex. Row 110 has a cap 70%
-

Credit Score: (expect communication from AE's if)

- **Min credit:** Does not meet the minimum loan amount required per takeout guideline.
- **Credit Tier:** Loan amount pushes them to another leverage tier. Ex 714 from pricing out at 720
- **Adverse items:** As always, communicate if you find any adverse items on the credit report, foreclosures, bankruptcy etc.

Tidbits:

- **DSCR lock:** For DSCR loans, once all items on the sizer are "verified" by our processor, the AE should communicate the terms to the borrower and get written approval that they want to proceed with the terms using the "lock template"
- **Bridge loans:** Assuming none of the above scenarios are in place, values sub 15%, adverse issues etc. We want to hold off on sending an updated term sheet until UW is completed.
- **Continue scrubbing file:** Please continue to scrub a file until the AE informs you the deal will not work or needs to be restructured.
- **Communicating:** Processors continue to send an email to AE's if items come in lower, values or credit, but do not expect the file to be repriced unless it hits the criteria above.
- **Quick Check**: AE's continue to do a quick check if values or credit come in a lil off, lower than our thresholds just as a double check to ensure nothing will be thrown of per structure, but if it does not:
    - Throw off the structure of the loan or;
    - Meet the thresholds below

  No need to communicate to the borrower updated terms. Until we get a clear picture.

Items that can change the DSCR Rate:

The following items must be relayed by the Processor to AE. If the numbers come in **LOWER** than what we had initially on the term sheet. The following must be communicated to the borrower by the AE to confirm if they still would like to proceed with lower values.

PROCESSOR is responsible for updating the current numbers in 1.) NOVA 2.) Sizer 3.) Takeout Portal

- APPRAISED VALUE- AS IS
- APPRAISAL- RENTAL VALUE
- TRACK RECORD FORM (if not on the loan estimator check the loan quote to see what they inputted, i**mportant to differentiate rentals from flips, typically need 1+ for 12 months to be experienced)**
- CREDIT SCORE- OR MORTGAGE LATES
- IF BORROWER HAS ONE OF THE FOLLOWING: 1.) BANKRUPTCY 2.) FORECLOSURE 3.) ANY CRIMINAL OFFENSES 4.) FORBEARANCE 5.) ANY MORTGAGE LATES ON CREDIT-> (processor to check takeout guidelines to confirm if deal killer, and relay to AE)

The following items do not need to be communicated to AE, HOWEVER the PROCESSOR 2 is responsible for updating the current numbers in 1.) NOVA 2.) Sizer 3.) Takeout Portal

- INSURANCE PREMIUM
- PROPERTY TAXES (without exemption)
- HOA
- PAYOFF AMOUNT
- ORIGINAL PURCHASE PRICE AND REHAB
- PURCHASE PRICE

LOCKING A DSCR LOAN

Below are the steps to locking a DSCR LOAN.

1. **Loan Set Up In Takeout Portal:** Processor will setup/register and upload all documents required. The following Approved Documents (reviewed by our UW) are required in order to lock a loan:

   a. **Appraisal**- (approved values by borrower if lower than term sheet)
   b. **Credit**
   c. **Insurance** (with insurance premium)
   d. **Tax Cert** (non homesteaded amount)
   e. **HOA** (HOA cert with annual fee)
   f. Signed Loan App
2. **Ready to Lock:** Processor will contact the AE to let them know we are ready to lock the loan.
3. **AE To Communicate With Borrower:** AE will send the "Ready to Lock" Template (based on takeout) to the borrower and call them to let them know we are ready to lock the loan. OR the loan has been locked (dependent on takeout)
4. **AE To LOCK Loan In Takeout Portal:** Once the borrower agrees to lock the loan. The AE will enter the information from the sizer (this is why it's important for the processor to update the information in the sizer accurately) to lock the loan:
5. AE to Move Stage in Nova to Rate Locked
6. **Update rate in sizer:** AE to update the sizer with confirmed rate.
   a. **Verus**- **Video** of how to lock a loan
      i. Click on the three dots to the right of the loan. Under the Pipeline-> (if the loan is not in the pipeline AE should register the loan)Registered

      ii. Click Edit or Price and Lock
      iii. Ensure all the information in the Borrower and Terms section is correct. Big fields to ensure are correct are:
         1. Note Rate (confirm its the note rate you quoted)
         2. DSCR (On sizer confirm the DSCR is correct with the note rate entered)
         3. Purpose- (ex if not a cash out any more etc)
      iv. Click Next
      v. Select the correct program only:
         1. Investor Solutions DSCR- 1 property in loan
         2. DSCR Multi (if property type is a 5+)
         3. DSCR Cross Collateral (if this is a portfolio loan)
      vi. Click Price Loan
      vii. Under Program Results confirm:
         1. Eligibility: Confirm loan is eligible (if not determine why with inputs, may be too high of leverage, etc)
         2. Borrower note rate (interest rate)
         3. Lock Price- If less than 100, go back and change the rate higher until it gets up to 100.

viii. **Eligibility Exceptions:** Take note of any warnings to ensure the loan is structured correctly

ix. Confirm Lock With Borrower: Send "READY TO LOCK-VERUS/Funding Door" Template to the borrower, and call them to confirm they want to lock the loan.

x. Lock the Loan: Once the borrower confirms the lock, lock the loan by clicking the 3 dots under Program Results-> Click Select-> Click **Lock**

	Price Adj	Lock Price	Pricing Details	
0.000	-3.625	99.950		⋮

1 Row

xi. Relay to AE and UW that you have locked the loan.

b. **Toorak**- **Video** of how to lock a loan

i. We lock the loan and relay the rate to the borrower:

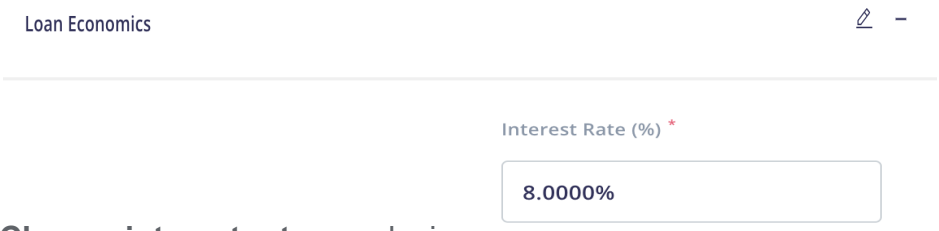
ii. Click on file in portal (status should be data entry)

iii. Click submit button

iv. **Confirm min price** (currently 99.25) Guidelines Outputs-> Final Toorak Pricing Section-> Confirm Final Toorak Price=100+ (min 99.25) 
(if less than 100 do V- Vii.)

v.

vi. Loan Details-> Loan Economics Section- Click edit button (pencil)



vii. **Change interest rate** you desire:

viii. **Click Save**:

ix. Email Interest Rate Locked Template-> To the borrower and relay what the current interest rate is.

c. Funding Door

i. Email Sean Feeny (funding door rep) the following:

1. Updated Funding door sizer
2. Loan Application
3. Credit Application

ii. Sean will confirm the rate lock. Then AE will relay it to the borrower

WHEN CAN WE LOCK A LOAN PER TAKEOUT

- **VERUS-** Lock once we have “approved docs”- If a rush can lock it anytime
- **DEEPHAVEN/Plaza/NQM/-** Lock once we have “approved docs”- If a rush can lock it anytime
- **Toorak**- Lock once we have “a full file ready to submit”
- **Funding Door**- Lock once we have “approved docs”-> If a rush once we have loan app and credit report.
- **RCN-** Lock once we are ready to submit to UW. RCN will email the processor when its time to lock, along with a sizer from the portal, and should relay to AE. AE will then confirm the rate with borrower, and relay to processor once accepted.
- **Roc**- Lock once the file is out loan committee (out of UW)-> Processor will relay to AE if the rate has changed once file is approved and out of UW (ATF stage) **(AE will not lock)**
- **Velocity**- Loan is only locked once file is out of UW-> Processor will relay to AE if the rate has changed once file is approved and out of UW **(AE will not lock)**
- **TVC**-Loan is only locked once file is out of UW-> Processor will relay to AE if the rate has changed once file is approved and out of UW **(AE will not lock)**

REPRICING A LOAN:

Repricing a locked loan:- We should not reprice a locked loan. However in a rare circumstance (we locked at wrong rate, borrower wants to buy it down after agreeing, etc)

- **Toorak-** Status-> If status is in Final Review->
  - Use the rate sheet from lock date-> Can request from lucas if you do not have it.
  - We must email Lucas what rate we are needing
  - **If not in final review**, can reprice it, please watch video **here**:
    - Loan Details-> Loan Economics Section- Click edit button (pencil)

Interest Rate (%) *

8.0000%

- **Change interest rate** you desire:

Save Cancel

- **Click Save**:
- **Confirm min price** (currenlty 99.25) Guidelines Outputs-> Final Toorak Pricing Section-> Confirm Final Toorak Price=100+ (min 99.25)

Final Toorak Price Edited

99.875

  - Ex. If you price at 99.5 relay to borrower he must pay .5 in buydown points.
- **Note**: The final Toorak Price= Price Adj Total+ Base Price.
- **Repeat the steps** if you need to adjust rate to correct the minimum Final Toorak Price

- **Verus/Deephaven-** Status-> When locked you can not edit the rate (unless done on the same day of lock)
- **RCN-** Status-> When locked you can not edit the rate (only by exception, and it will come with a treasury fee)
- **ROC-** No repricing after lock (loan is out of committee at this stage)
- **Velocity**- No repricing after lock (loan is out of committee at this stage, also VC tends to not have much market movement in pricing)
- **Funding Door**- Email Sean For an Exception

BUYDOWNS AND UPDATING RATE IN NOVA AND SIZER:

When a client would like to “buydown” the rate. The fee is placed in the sizer. Account reps in NOVA and the sizer please update the interest rate:

In Nova to add the buydown points: (do immediately so its not missed during closing)

* Press the pencil icon to edit a fee

+ Add

Go to Closing Tab-> Fees-> Click Add

Line Description= Buy Down Points

Percentage= Percentage of Buy Down

Additional Info-> Check APR and Wire

Click Save

Prospecting Strategy

Criteria for Outreach

- Any lead assigned to you in our CRM
- Any lead you have engaged online or offline (**ensure contact is entered as a contact in hubspot**) that is interested in investing in real estate, now or in future.

Lead Sources and Status for Each Contact in Hubspot

Leads can come from a variety of sources.

LEAD SOURCES

<u>ONLINE</u>

FORMS

- Account Executives can **check the activity section in hubspot** to view the submission details before contacting the client to get a sense of who they are and what they need
- 
- **Contact Us Submissions**: Is a form on our website where the prospect fills to receive more preliminary information from us. Will include reason for contacting us and comments
  - Link to page is HERE (click on link to get familiar with page)
  - Ex. Prospect may want more information on a loan quote.
- **Broker Lead Submission**: Prospective brokers can sign up to work with us by submitting deals to us.
  - Link to site on our website is HERE (click on link to get familiar with page)
- **Loan Quote Submission:** This is the warmest lead type. Prospective borrower's submit details about their deal; property address, purchase price, estimated ARV, experience etc. for our AE to review, and send out a term sheet if it's a deal we can fund.
  - Link to site on our website is HERE (click on link to get familiar with page)
- **Website Chat:** Prospects that are on our website, have not pulled the trigger to submit a form on our website, but decide to chat with our chat box on our website
- **Social Media- Facebook chats:** Prospects that send us messages to our company social media direct message platform. The conversations will be assigned to a sales rep. Sales rep are required to reply, contact prospects the same day.

OFFLINE

- All leads offline must be entered into Hubspot as a contact. Offline lead sources include but not limited to:
  - Personal database/ book of business
  - Inbound calls
  - Meetings/Sponsorship events
  - Wholesale/Realtor/Broker Relationships

Lead Qualification Process – LOA

✅ **1. Qualified Lead (No Deal Yet)**

- **Scenario:** Lead is actively looking for funding or a property, but does *not* yet have an address.
- **Action Steps:**
  - **Create a Deal** → Assign **Deal Stage = Lead**
  - **Update Contact & Deal Owner** → Assign to appropriate AE
  - **Mark LOA Originated = Yes**
  - **Add Notes in Deal Record**:

💰 **2. Active Deal (Address Provided)**

- **Scenario:** Lead has an investment property identified and is seeking a loan quote.
- **Action Steps:**
  - **Create a Deal** → Assign **Deal Stage = Loan Quote**
  - **Update Contact & Deal Owner** → Assign to AE
  - **Mark LOA Originated = Yes**
  - **Request Prequal Details** (use HubSpot snippets or templates):
    - Purchase price
    - Rehab budget
    - Estimated ARV
    - Borrower contribution
    - Exit strategy

    - **Add all notes** in the Deal Description field to assist AE with pricing
- **HAVE ALL THE SNIPPET DATA POINTS**
    - Create a google drive folder- in the Website/Apps folder -> New- Google Sheets- From Template- Select correct sizer
    - Enter details in correct sizer -> Click **HERE** for correct one
    - Put note in hubspot that you created the sizer

❌ **3. Unqualified Lead / Decline**

- **Scenario:** Lead is not currently a fit due to criteria such as:
    - Location of deal, insufficient funds, wrong property type, or owner occupied
- **Action Steps:**
    - **Call the lead, let them know what we do and why we cant help them in this scenario.**
        - **If a broker- create a task for AE to call them. Only call direct borrowers**
    - **Do not create a Deal**
    - **Update Lead Status**:
        - Does Not Qualify – Credit / Funds / Other
        - Not Interested
        - Bad Timing etc.
    - **Enroll in Nurture Sequence** (or) **Create Manual Task**:
        - Follow-up in **30 / 60 / 90 days**
        - Add note with decline reason

📌 Reminders for All Leads

- Ensure **"LOA Originated" = Yes** for all deals you create.

- Always **log detailed notes** in HubSpot (in the contact + deal record).
- Always use 3 ways to contact - Email, Call and Text

- Use **standard naming convention** for Deals: `[Property Address] – [Lead Name )`

- CC AE via email to review and follow up.

CLICK **HERE** TO REVIEW HOW TO ASSIGN A EMAIL TO AN AE

👤 Contact Owner Assignment – Lead Ownership Rules (For LOA)

When handling inbound leads via chat, phone, or email, follow the rules below to assign the correct **Contact Owner** in HubSpot:

🔹 **1. If you create a new contact and it is *not* a hot lead (no deal yet):**

- **Keep the Contact Owner as yourself**

- This applies to leads that are:

  - Not responsive

  - Don't have a property identified

  - Not ready for pricing

- You'll continue managing follow-up and nurturing (via task or sequence) until they become deal-ready.

🔹 **2. If the contact already exists in HubSpot and is assigned to an AE:**

- **Do NOT change the Contact Owner.**
- Proceed with your task (create a note, send an email, or trigger a task).
- Tag the AE if needed and add relevant notes to the timeline.

🔹 **3. If the lead is qualified and has a deal or is ready for pricing:**

- **Create a Deal** in HubSpot.
- **Assign Contact Owner and Deal Owner** to an Account Executive.
- Follow the internal round-robin assignment:
  - Assign more deals to **Juma** when possible (we are actively building his pipeline).
- Set **Deal Stage** based on deal readiness:
  - No address = `Lead`
  - Deal details provided = `Loan Quote Received`
- Check the custom property: **`LOA Originated = Yes`**

LOA- What docs are needed to order Valuation

🎯 LOA Daily Dashboard Review & Follow-Up SOP

Purpose:
Ensure no borrower, lead, or quoted deal goes untouched in your pipeline. Maintain momentum and responsiveness to drive conversion.

📊 Reports to Review Daily (Every Morning)

Dashboard Report	Trigger	Priority	Action Focus
LOA Originated – Loan Quote (No Touch 2 Days)	No contact by AE in loan quote for 2+ days	🔥 Highest	Gather info → Price → Move to *Term Sheet Ready* → Communicate
LOA Originated – Lead Stage (No Touch 3+ Days)	Borrower still in early discovery stage	Medium	Contact borrower → Collect info → Price → Move forward
LOA Originated – Term Sheet Sent (No Touch 3+ Days)	Term Sheet delivered but no movement	High	Re-engage → Confirm status → Identify blockers → Request exceptions if needed

Reminder: The LOA is responsible for deal movement for there originated deals. Deals should *not* sit without next steps or outreach.

---

1) 🏁 Loan Quote Stage (Most Critical Stage)

Goal: Move deal to Term Sheet Sent or Review – For Management Review quickly.

Action Steps:

- **Open deal and review all activity:**
    - **Notes, calls, emails, documents, pricing comments.**
- **Gather all available deal details (purchase price, rehab, ARV, exit strategy, experience, etc.).**
- **If enough information is present:**
    - **Price the loan using correct Sizer**
    - **Move pipeline stage → For Management Review ✅ (TL deals) -> Term sheet sent -> If comfortable with pricing.**
- **Communication Steps:**
    - **Call the borrower first.**
    - **After call → Send recap email (always).**
    - **CC the AE on all communication.**
- **Documentation Requirements:**
    - **Always Set a Next Activity Date.**
    - **Always Leave clear notes in HubSpot explaining what you did and what happens next.**

---

2) 📞 Lead Stage (No Touch 3+ Days)

Goal: Collect required information, price the deal, send Term Sheet.

Action Steps:

- **Call borrower to collect remaining deal items (purchase contract, rehab budget, experience, exit plan, etc.).**

- **Once sufficient info is gathered → Price the loan. -> If no deal-> remove from pipeline, update lead status-> set next activity date**
- **Move deal → Term Sheet Ready – For Management Review.**
- **After approval → Send Term Sheet to borrower.**
- **CC AE on all communications.**
- **Always Set Next Activity Date + Log Notes.**

---

3) ✍️ Term Sheet Sent Stage (No Touch 3+ Days)

Goal: Convert to "Move Forward" or identify what's blocking progress.

Action Steps:

- **Review all notes to understand context before outreach.**
- **Call borrower to confirm:**
    - **Did they receive & review Terms?**
    - **Do they have questions?**
    - **Are they moving forward?**
- **If hesitation:**
    - **Identify what they need to move forward.**
    - **If pricing/fees are blocking → evaluate exception possibility.**
    - **Communicate findings to AE.**
    - **If exception needed → Ping Management for approval.**

- **Document EVERYTHING in HubSpot:**
  - **Call notes**
  - **Decision status**
  - **Next step scheduled**

📬 Communication Standards (Non-Negotiable)

For all stages, follow this outreach flow:

1. **Call borrower 📞**
2. **If no answer → Leave voicemail 🎙️**
3. **Immediately send email recap ✉️**
4. **If still no response → Send text 📱**
5. **Always Log notes + Set Next Activity Date 📝**

If it's not logged in HubSpot, it didn't happen.

🏆 Professional Standard

- **The LOA is the Momentum Manager of the pipeline.**
- **Deals should never sit idle.**
- **Consistent follow-up + clean documentation = more closed loans.**

LOA Follow-Up on Inactive Files

📄 SOP: LOA Follow-Up on Inactive Files

Status Triggers: Application Stage & Valuation Ordered Stage

🔁 PROCESS FLOW: From File Upload to Follow-Up

1. **AE- File Uploaded to NOVA**
    - File is assigned and visible in pipeline.
2. **Processor 2**
    - Reviews file for completeness. Updates “Needs” section in Nova.
    - Sends initial **email and/or text** requesting **missing documents** required to move file forward.
3. **Processor**
    - Immediately calls the **borrower or broker (within 24 hours)** to introduce themselves. (intro call)
    - Confirms **closing date** and recaps the key next steps needed for valuation.
4. **Loan Officer Assistant (LOA)**
    - Begins active follow-up on any missing documents still outstanding. (minimum 2x per week)

- Will initiate follow-up per protocol below if borrower/broker becomes unresponsive.

⚠️ LOA TRIGGER 1: Application Stage Follow-Up

✅ WHEN TO SEND:

TEMPLATE NAME ⚠️ Urgent: Loan in APPLICATION – File Will Be Withdrawn if No Response in 3 Days

Send this email if:

- We have **not received a response after 3 touches**
  - *1 touch = either (phone call + text) or (email + text)*
  - All 3 touches must be documented in NOVA

OR

- **Required documents have not been received** to move the file forward to order valuation
  - Check “Needs” section in Nova to confirm nothing new has been uploaded.

✅ BEFORE SENDING:

- Update the template to include **specific outstanding documents**.
- If documents were indeed uploaded, relay to **Processor 2** immediately to confirm value can now be ordered.
- **Email template the broker** if there is a broker; **email the borrower directly** if there is no broker.

- **CC:** Yourself (LOA), Processor, Processor 2, and Account Executive.
- Add the deal to the **AE "Hit List"** for final outreach.

⚠️ LOA TRIGGER 2: Valuation Payment Not Received

✅ WHEN TO SEND:

Template name : ⚠️ Urgent: Valuation Payment Needed to Avoid File Withdrawal

Send this email if:

- Valuation has been **ordered** but we **have not received confirmation of payment**.
- No response from borrower/broker after attempts to follow up.

✅ STEPS TO CONFIRM:

1. **Check "Deal Contacts"** in Nova to see the appraiser info.
2. **If ordered through AMC (e.g., Appraisal Nation, Richey Value):**
    - Log in to AMC portal to confirm payment status.
    - If unsure how to check, ask **Processor 2** for access/support.
3. **If ordered with individual appraiser:**
    - Reach out to the appraiser directly to ask if payment has been made.
    - If no response, proceed with borrower/broker follow-up email.

✅ BEFORE SENDING:

- **Email the broker** if there is one; borrower if not.
- **CC:** Yourself, Processor, Processor 2, and AE.
- Add to AE Hit List if no response.

📌 Reminders for LOA:

- Always check **Nova > Needs section** for document status before emailing..
- Keep templates clear and tailored with specific document names.
- Leave a pipeline note in NOVA.
- **Follow escalation protocol**: if no response after email, AE follows up, then file is marked for withdrawal during the next **pipeline meeting** by management.

Lead Stages

Every contact labeled as a 'lead' without an associated deal in HubSpot must be assigned a category under 'lead stage.' This classification helps Account Executives (AEs) track and filter each contact's position in the prospecting lifecycle. **Remember, the 'lead stage' is active and should be updated after each contact, either manually or automatically through HubSpot- at every key point: new contact, contacted, qualified etc**

PLEASE CLICK HERE TO WATCH A VIDEO FOR MORE INFORMATION ON LEAD STAGES.

Lead status categories

NEW- The initial stage. The contact is entered in the “new” stage when the contact is created in hubspot.
Attempting- Leads are automatically moved to this stage when an AE either emails the client or calls the client.
Connected- Automatically moved to this stage when a the lead either

- Replies to an email
- AE logs a connected call outcome
- Logs a completed meeting outcome

Qualified- Automatically moved to this stage once a deal is created and the lead is the associated contact of that deal.
Disqualified- This is **manually** done- if the lead is disqualified the AE must select a reason why. Also must add a follow up task for all reasons to reach out to see if the user may be qualified at a later date.

The following are disqualified reasons you can select from:

1. **Bad Timing:** Connected, however not a good time to talk, (AE should ask prospect the best time and create follow up task to reconnect)
2. **Budget Constraints:** Lead is not ready to buy a home because of a lack of liquidity.
    a. Should see if they have a partner with exp for higher leverage
    b. Discuss seller seconds
    c. Create a follow up task to reach out to see if they have funds
3. **Competitor Preference:** If the competitor is another hard money lender
    a. Determine what their needs are, what are they looking for that their previous lender could not provide. If its higher leverage, faster draws, etc And provide a solution for them if we have one. if we have a solution for them
    b. If competitor is a bank: Provide the benefits of a private loan that a bank loan can’t not provide:Ex:
        i. Higher leverage
        ii. Speed
        iii. No taxable income needed
        iv. Not on credit report
4. **Prior Negative Experience:** Show empathy for their experience:
    a. Ask what their issue was
    b. Listen

   c. Provide assurance that it wont happen again: Ex. Lack of communication- Reassure them that you will be their point of contact moving forward and will communicate with them. Email them your contact info, let them know you can email, call or text you.
5. **Does Not Qualify- Funds Low:** Has no money, and no experience. (For purchases experienced borrowers still need reserves, even we if are lending 100% LTC)
6. **Does Not Qualify- Credit:** Ex. Long term loan sub 500 credit score
7. **Not Interested:** Does not want a loan
8. **Lead is not a potential borrower. ex. title company:** Each new contact is entered as a lead in hubspot, if a title company or appraiser etc:
   a. Open the contact record
   b. Update the contact type to the correct type, ex Appraiser etc.
9. **Unresponsive** :Any lead you have not been able to get in contact with via phone, text, or a email reply-> Enroll them in a Unresponsive sequence
10. **Wrong Number**: If the number connects and they state we have the wrong number or if the number does not dial.

Lead Views and Action Items

LEAD VIEWS

Each view in your Lead tab in Hubspot should have the following columns in the following order

1. Stage
2. Next Activity- **Each lead should have a scheduled activity, or enrolled in a sequence**
3. Lead Label
4. Enrolled Sequence
5. Last Activity
6. Lead Engagement
7. Call Count
8. Outreach activity count
9. First Outreach Date
10. Object Create Date

11. Time to First Touch
12. Contact number of pageviews

🛠️ Lead Review & Follow-Up SOP

🔍 Daily Lead Review

- **Review at least 15 leads per day** from the “Stale/Unworked” view when prospecting.

- Prioritize leads based on **Last Activity Date**, **Lead Status**, and **Engagement Signals** (email opens, clicks, etc.).
- Every lead must have a next activity Date

🧾 Step-by-Step Process

✅ 1. Review Recent Communication

- Click into the lead record to determine what to do and check:
    - **Recent activity logs** (calls, emails, texts)
    - **Email engagement** (opens/clicks)
    - **Sequence enrollment status**

📞 2. Contact the Lead Based on Engagement Status

- **No communication ever:**
    - Make first **call**, leave voicemail, send intro email, set follow up task.
- **Stale lead (no response in 30+ days):**

    - Call again; if still no response, consider pushing to **Nurture** sequence if we have reached out 6+ times

- **Stage = Attempting:**
    - Use a **different contact method** (e.g., SMS or alternate phone/email).
- **Stage = Connected but no next steps:**
    - Re-engage

🛠️ 3. Update the Lead Stage in HubSpot

Disqualified

- Mark as Disqualified if:
    - No valid contact info
    - Not an actual lead (e.g., title company, appraiser)
    - Email bounces or phone number is disconnected- Disqualification reason- Wrong Number
    - Add a disqualification reason

Unresponsive

- Use this if:
    - No successful contact after **5–6 total outreach attempts** (at least **2 calls**)
- After marking Unresponsive:
    - Move the lead to **Nurture**

- Set **Next Activity Date = 90–120 days** from last attempt (should be last step of nurture sequence)

Nurture

- Use this if:
  - Borrower is still interested but not actively ready
  - They opened/clicked emails but didn't respond
  - Said things like "Check back in a few months" or "Not right now"
  - You believe they are a legit investor, just not ready
- Always set a **Next Activity Date** when moved to nurture

Attempting *(automated)*

- Used when outreach is ongoing, but no contact has been made yet

Qualified *(automated)*

- Automatically updates once a deal is created or priced

📅 4. Next Activity — Always Required

- **Every lead must have a next step:**
  - Call task
  - Follow-up email
  - Re-enrollment in a sequence

- Set based on urgency:
    - **Active borrowers:** shorter interval (1–3 days)
    - **Inactive/hunting later:** longer interval (1–3 weeks)

🔖 5. Lead Labeling — Hot, Warm, Cold

Use lead labels to help prioritize follow-up and communication style:

- **Hot:**
    - Actively looking for a deal and ready to move forward
- **Warm:**
    - Planning to invest or finance soon, but still preparing
- **Cold:**
    - Not actively looking, but open to investing in the future
    -

What Should Happen After the Nurture Sequence Ends (No Deal Yet)

✅ Step 1: Evaluate Engagement Signals

Before deciding what to do, ask:

- **Did they open or click any emails?**
- **Did they ever reply or answer a call?**
- **Have they had prior deals or submissions with us?**

📊 **Decision Matrix:**

Engagement Level	Next Action	Lead Status	Next Activity
✅ High (opens/clicks, no reply)	Ensure they are a marketing contact	Nurture	Next activity in 60–90 days
❌ No Engagement	Move to **Dormant / Cold**	Unresponsive	none
🟡 Some Activity + Good Fit	Ensure they are a marketing contact	Nurture	Task in 90+ days
🧱 Previously Funded	Ensure they are a marketing contact	Past Client	none

Sequences to use

- **Nurture- DSCR:** Use this for leads that are interested in long term loans
- Nurture- Unresponsive- Leads that you have tried to contact 6+ times
- Nurture- Not Ready yet: Leads that are not ready yet, but may be later
    - If sequence completes, final task will be to update lead stage (see matrix) and add your next activity based on lead outcome.

- Ex. No lead engagement= update lead stage unresponsive

LIFECYCLE STAGES

Lifecycle stages categorize contacts and companies based on their position in our marketing and sales processes. This property helps us track where each contact or company is, clarifying how leads transition between marketing and sales

Lifecycle Stages

Categorizing Leads Correctly Is Crucial. It helps us

1. **Maximize our sales conversions**
2. **Assists AE's to close more deals**
3. **Ensure AE''s are speaking with qualified leads**

PLEASE CLICK **HERE** TO WATCH THE VIDEO FOR A BETTER UNDERSTANDING OF LIFECYCLE STAGES:

Subscriber: Clients that subscribe to one of our blogs, email blasts. (this is a hubspot field but not a field that we will use)
Lead: Each client that is entered into hubspot starts off in the stage. Note that you can manually change the stage at any time if you feel they are further along or behind. Can do so in the contact record view. This is automatically updated via a workflow
Marketing Qualified Lead: When a client is in this stage, they are automatically added as a new lead in the workspace-> prospecting view. These clients should be in a nurturing sequence campaign. Clients can be pushed to this phase if manually: Just some examples below:

- Client visits our website a number of times without submitting a form submission
  - "They've already passed the research phase and have indicated by their online behavior that they are ready to take the next step"
- Client clicks a link in a marketing email blasts
- Social Media interactions
-

Sales Qualified Lead: When a client is in this stage, they are automatically added as a new lead in the workspace-> prospecting view.

The biggest difference between a MQL and a SQL is the intent to get more information about our loan products, company etc.

- Marketing team believes that the client is ready to have a discussion with our sales team. Ex. Responds to a marketing email with questions. Etc.
- AE inputs a contact manually from initial engagement- qualifies them.

Opportunity: A client that is associated with a deal. Does not mean it has closed, but has had a deal with us at some point. Could have been in any stage before funding. This is automatically updated via a workflow
Customer: A client that we have funded a deal for. This is automatically updated via a workflow
Evangelist: A client that we have funded a deal for AND. Was a happy customer, or referred us to a client.
Unsubscriber: A client that has opted out of our marketing emails. This is automatically done.

PLEASE CLICK **HERE** TO WATCH A VIDEO TO UNDERSTAND LEAD THE IMPORTANCE OF LEAD NURTURING AND GENERATION

Deal Pipeline

PLEASE CLICK HERE TO WATCH A VIDEO ON HOW TO NAVIGATE THE DEAL PIPELINE IN HUBSPOT LIKE A PRO

A deal can go in the pipeline two ways.

1.) Automatic-> When a client goes to our website and fills out a Loan quote form submission
    a.) If they select an AE they are working with, it will be directly assigned to the specific AE that was selected.
    b.) If they do not select an AE it will be assigned round robin to an AE
    c.) You will get an email stating you have been assigned the deal, click on that to go to the deal.
    d.) You will also get an email with the details of that form submission
        i.) You can also click the contact in Hubspot once in the deal view, and scroll down to view the form submission details

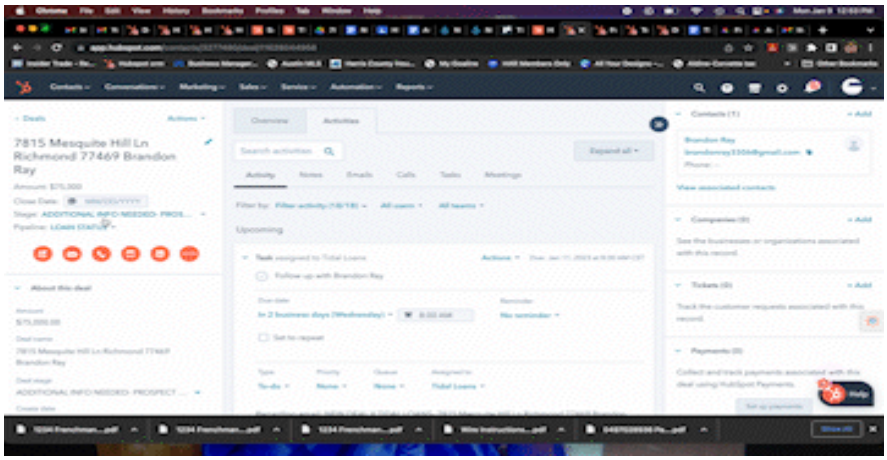
2.) Manually-> AE manually creates a deal in the pipeline after direct contact with the prospective borrower, via phone, email, etc. -> Click HERE to see a video on how its done.
    a.) Get all the details you need to price the loan from the borrower
        i.) Use the "Loan quote questions templates as a guide" Ex. LONG TERM REFINANCE- LOAN QUOTE QUESTIONS
        ii.) If a call-> save note in the call section in hubspot while on the call. If you do not complete the pricing after the call do not forget to make a task for yourself!
            (1) Always relay to them to check their spam folder just in case it goes there.
    b.) Create a subfolder in Gdrive Website app/loan quote main folder
    c.) Price out the loan
    d.) Go to contact page in Hubspot-> Click Add Deal
    e.) Deal name must be the the same as the Estimator name-> Property address- Borrower Name
    f.) Fill in all the fields
    g.) Email borrower term sheet using "term sheet updated" template
        i.) Personalize the email and attach the term sheet
            (1) Move stage to Term Sheet Sent
        ii.) Call the borrower to sell the deal
            (1) Or create a follow up task to call before end of day-> to give them time to review term sheet
    h.) Create a task to follow up via Call and Email within 1 day.
    i.) If no answer place them in a term sheet sequence.

DEAL STAGES

1. **LOAN QUOTE RECEIVED**: Term sheet requested, borrower submits form submission.
    a. If the deal is not priced in 3 days, AE is in violation of sales guidelines-> 1.) Task is assigned to AE 2.) In 4 days the loan is automatically reassigned.
2. ~~**(N/A)ADDITIONAL INFO NEEDED- PROSPECT CONTACTED**: AE TO MOVE IN HUBSPOT if in need of additional information to price. Ex. Multi Family Bridge, Need supporting docs~~
    ~~a. Ensure the borrower is contacted (phone and email) requesting the documentation that we need for review and a potential term sheet~~

~~b. If the deal is in the stage for more than 5 days without any activity you will be flagged with a sales guidelines violation task and email. Instructing you to call the client, if no response, moving the file to lost.~~

3. **TERM SHEET READY FOR REVIEW**: MOVE IN HUBSPOT
    a. AE's in training (first 3 months) must send all deals to this stage for Management approval before sending out.
    b. All Tidal Loans files must be sent to this stage for management approval, unless the sizer allows you to send without approval.
    c. AE's can send deals in this stage if
        i. They are unsure and want management's approval of a term sheet before sending out.
        ii. Exceptions: Looking for an exception request from management.
            1. Exceptions for takeouts should be sent directly to the takeout
        iii. (please make a note in hubspot on what you are concerned about or want reviewed)



4. **TERM SHEET SENT:** Move to this stage IN HUBSPOT once you have **emailed and called/reached** the borrower about the term sheet to sell it. Utilize three points of contact, Call, Text, Email
    a. **Task:** Complete the task requested in Hubspot
    b. AFTER EVERY VOICEMAIL YOU SHOULD SEND A TEXT AS WELL
        i. When you move the deal in hubspot to term sheet sent stage, it will automatically create a deal in NOVA.
    c. **Sequence**: After sending a term sheet, and completing 2-3 follow up tasks (call email and text) put them in this sequence (Term Sheet Follow up)
        i. Last Step in sequence will be the move to withdrawn-not in processing stage
    d.

5. **APPLICATION:** Borrower has emailed the signed term sheet AND signed credit auth to the AE.
    a. AE completes all tasks in hubspot. DO NOT MOVE IT TO APPLICATION STAGE IN HUBSPOT
        i. Locate the deal in nova
        ii. Complete all the tasks in nova
        iii. Final Tasks is to MOVE THE FILE TO APPLICATION IN NOVA
    b. Please click **HERE** for a checklist on how to set up a deal manually in case the integration does not work.

    c. ***Set up follow up sequences:*** *Once you have uploaded the deal into Nova, please also set the borrower up in a 3-part email sequence:*

1. ***Processing Portal Opened - Email 1****: Send this the same day.*
2. ***Processing Portal Email 2****: Schedule this to be sent 5 days later.*
3. ***Processing Portal Email 3****: Schedule this to be sent 10 days later.*

6. **FUNDED:** Loan has closed.
    a. Underwriter will move the file to this stage once the loan is closed and the required fields in hubspot have been updated.
7. **WITHDRAWN IN PROCESSING:** File is dead after we received the term sheet (in processing)
    a. UW- will let you know why the file is dead, you must relay it to your client via a phone call.
    b. Confirm with UW that you have relayed it to the borrower
    c. UW will move the file in NOVA to withdrawn in processing
    d. AE will get a confirmation email with the borrower cc'd.
    e. AE to update hubspot deal close lost reason.
8. **WITHDRAWN NOT PROCESSING:** Client decided not to accept our terms, or no answer: Move it to this stage:
    a. Once the file has completed the term sheet sent sequence, or
    b. You have heard from client there is not a chance they will proceed

Move the file to this stage IN HUBSPOT.

Automations

We use workflows, sequences, AI to automate certain tasks. Below are the automations we have for our sales team:

Term Sheet Sent Workflow

Inbound Prospecting Strategy

We use the following Hubspot tools to effectively manage our inbound leads and serve our clients in a timely manner:

1. Tasks
2. Sequences
3. Templates
4. Snippets

Sequences: The use of sequences are mandatory, we are keeping track of the amount of sequences each AE is using.

Every lead must be put in some type of sequence or follow up task after contact (connected or not); based on client need, readiness of the client, etc

- ☐ **Tasks**-> Better used for customized to-do reminders Ex.
  - ☐ Bad Timing: After you speak to client, they say call me at 2PM next week tuesday.
- ☐ **Sequences**-> Better used for automatic/manually reminders. Use case EX.
  - ☐ Stale leads that you want to continue to nurture.
  - ☐ Deals: Term sheets sent, that you have not been able to reach the client about after calling, emailing and texting.
  - ☐

Tasks- We keep track of our to-do list in HubSpot by creating tasks. You can create tasks as reminders associated with a specific client.
For more info on how to create tasks and ideas in hubspot please click here. Task examples:

- ☐ **Ex.** Leads you made contact with and have a customized timeline to complete the to-do/follow up. Use your discretion on the dealy time to contact them back:
    - ☐ Ex. Made contact but still searching for deal-> Task to call back in 1 month
    - ☐ Ex. Made contact, has a deal but still searching for lenders but not ready to request a loan quote yet-> 1 week
    - ☐ Ex. Sent a term sheet, did not have time to look at it or discuss over the phone, said to call him back tomorrow:

Sequences- Sequences we use:

- ☐ **New Lead->Left voicemail/unable to connect**: When->>New lead and First contact, Response->> left a voicemail/missed call
    - ☐ After you leave a voicemail immediately enroll that contact in this sequence. **(Data shows a 71% response rate once you leave a voicemail and email immediately)**
    - ☐ Please note you can customize the first email in the sequence to make it more personalized.
- ☐ Broker Sign up
    - ☐ When you speak to a prospective broker who has not signed up yet.
- ☐ Term Sheet Follow up
    - ☐ After sending a term sheet, and completing 2-3 follow up tasks (call email and text) put them in this sequence

Sending a term sheet to the borrower: Steps are below: Link to video Here

- ☐ Email the term sheet to the borrower-> Use the **Term Sheet Updated** template to email the borrower. -> update stage to - **TERM SHEET SENT**
- ☐ Call the borrower after you send the term sheet
    - ☐ If **you connect** with the borrower, create a follow up task depending on the interest level, and urgency of the deal.
        - ☐ Use your discretion, remember deals are time sensitive so be aggressive in your turnaround time to follow up
    - ☐ If you **do not connect** with the borrower, leave a voicemail.
        - ☐ Enroll the client in the sequence Term Sheet Follow UP. Few notes:
            - ☐ Reply to the email that you sent the term sheet in.
            - ☐ Set the initial follow up email “STEP 1” to send out in 24 hours.
            - ☐ Remember you can edit an email in a sequence for personalization if you like.

We use **templates** everyday in Hubspot. AE's are encouraged and are allowed to create their own but they must be approved by management. Be aware that email templates are not a substitute for calling and emailing. **Calls are a HUGE component to this business.**

Some of the Sales Templates we use in Hubspot:

- DECLINE- RURAL
- DECLINE- DOES NOT MEET MIN LOAN AMOUNT (LONG TERM LOAN)
- DECLINE- LAND LOAN
- DECLINE- NEED SPREADSHEET LISTING PROPERTY DETAILS FOR PORTFOLIO LOAN
- INTRO- LEFT VOICEMAIL-> Intro call to a lead, left a voicemail
- Receive a LOAN QUOTE ONLINE
- LOAN QUOTE ONLINE (AFTER SPEAKING TO CLIENT)
- PROCESSING- NO RESPONSE FROM BORROWER
- Not Ready Yet- STILL LOOKING FOR A DEAL
- Not ready yet-NOT A GOOD TIME TO TALK
- SIGN UP TO PARTNER WITH US->>BROKER PROGRAM
- BROKER PROGRAM WELCOME
- TERM SHEET RECEIVED

Talking to Clients

THE OBJECTIVE IS NOT TO CLOSE A DEAL BUT TO DEVELOP A RELATIONSHIP

A majority of our leads are inbound leads, not outbound leads. So there is a level of familiarity that is already there.

REAL OUR SALES CALL STANDARD HERE

4 Stages of a Sales Call

1. **Preliminary Stage**: This stage involves setting objectives and preparing for the sales call.

a. Gather information about the prospect by reviewing the activity section in hubspot. Ex.
   i. Review any form submissions
   ii. Did another team member speak with them, what was the result?
   iii. Check the notes section to see details of previous calls.
   iv. Plan your approach, and set specific goals for the call.
b. Opening technique: Examples:
   i. Relating to the buyer's interest: Ex. Asking them how they got into the RE business
   ii. How your deal search is going in this market etc.
c. There is not one way to open up a call, but don't spend too much time here on pleasantries.

2. **Investigation Stage**: In this stage, the focus is on asking questions to understand the client's situation, needs, and challenges.

Bad AE's focus on what they will "tell" clients, while Good AE"s focus on **what they will ask the client.**

a. When you focus on the investigation stage, the obtaining commitment stage will take care of itself
b. Use Situation, Problem, and Implication questions to uncover information and engage the prospect in a meaningful conversation.
c. **Situation Questions**:

These help gather basic facts about the borrower's current situation. These questions are essential to build a foundation of understanding.

Examples:. TO DETERMINE WHAT STAGE IN THE SALES CYCLE THEY ARE IN

d. **Do you have a current deal in your pipeline that you would like me to review for a loan quote?** If yes (its a hot lead). Go through the appropriate Loan Quote Questions template in hubspot as your guide. (see ex of a template below)-- The goal here is to grab the information needed to give them pricing and NOT send them to the loan quote page on our online website
   i. Property address:
   ii. City:
   iii. State:

iv. Zip code:
v. Property type (SFR, 2- unit, 3-unit 4 unit, Condo, Townhome 5+, Mixed-Use):
vi. Purchase OR Refinance:
vii. Purchase price:
viii. As-Is value:
ix. Credit score:
x. US citizen, yes or no:
xi. Monthly rental income (traditional rent):
xii. Monthly rental income (short term rental)
xiii. Loan type (Long term or short term rental)
xiv. Is the property leased, yes or no:
xv. Annual property taxes:
xvi. Annual insurance premium:
xvii. Monthly HOA:
xviii. Number of rentals currently owned, or have purchased in the last 3 years?
xix. Loan amount requesting:

e. **How frequently are you involved in rehab or renovation projects?**
f. **Are you primarily focused on flips, rental properties, or a mix of both in your current strategy?**

Examples: to determine what stage of real estate investing the client is in:

g. What type of deals are your currently looking at in your pipeline?
h. How has prospecting for RE deals been going so far?

When you get very comfortable with our loan products, and understand the High and Low side of our loan products. You can shorten that list and give high level details in the following stage “demonstration”

Problem Questions:

<u>These are designed to uncover challenges or pain points the borrower is facing, which your services might address.</u>

Examples:

i. <u>What is most important to you when reviewing a loan product?</u>
   i. Highest leverage- % amount?
   ii. Low Fees

iii. Lowest Rate
iv. Is your primary concern related to out of pocket costs or interest rates?

j. Is there an amount of pocket you need to stay within to close?
k. What would you have liked to see different on previous loans you completed?
l. What issues have you faced when trying to secure funding for properties needing major renovations?
m. Do prepayment penalties factor into your decision-making process?
n. When do you think you would have this project completed?
o. Do you need help with a refinance option to hold the property?

Implications Questions:

These highlight the consequences of the problems identified, helping the borrower understand the urgency of solving these issues. -> The least important type of question in our line of work, as borrowers know that they need reliable financing to get their deal done

Examples:

p. How does getting higher leverage increase your ability to scale your investment portfolio- Leaning on our higher leverage options
q. How do delays in securing financing affect your ability to close deals quickly or at a competitive price?-> Leaning on our no appraisal options in select markets to close a deal quickly

KEY TAKEAWAYS:

- Once you understand your borrower's needs, you can sell the product that best fits their needs.
- The point of the previous stage was to ask meaningful questions to guide the borrower to the best programs, make sure they understand their risks, and gain confidence in the team.
- Be conversational **but control the conversation** and ensure your questions are answered.
- When it comes to asking probing questions, when you finally get to the root problem and can present a viable solution, your closing percentage drastically increases! SEE NEXT STAGE: Demonstration Stage

3. **Demonstration Stage:**

Once the AE has identified the clients needs, qualifications, and challenges, move to the demonstration stage. Here, the AE presents the best loan product in a way that directly addresses the prospect's concerns and highlights the benefits of their offering.

Client Situation:

Client's Need: The client wants to purchase a deal but has low liquidity.
AE Current Action: Gathered all deal details during the investigation stage, and presents a viable option during the Demonstration Stage

Call Before Presenting the Term Sheet:

1. **Know the Loan Products**: AE must fully understand the loan products Tidal Loans offers before the call.
2. **Identify Pain Points**: If the deal is a rehab and the borrower's main concern is low cash to close, focus on how we can help with a higher leverage deal if possible.
3. **Present High-Level Terms**: Share potential leverage options we can offer to address their concerns.
4. **Next Steps**: Let the borrower know you'll review the details after the call and send the term sheet shortly if the pricing can't be confirmed on the call (need a long investigation stage).

Demonstration Stage Types:

- **Long Demo**: If pricing cannot be discussed over the phone:
  - Gather details
  - Let client know you will call them back and send them a term sheet shortly
  - Email, call, close/ or add to follow up sequence
- **Short Investigation**: If the deal can be priced quickly, move on to getting a commitment and addressing any concerns the borrower has. Always **ASK** for the commitment.

Employe the 1:3:1 method:

This process involves stating the problem, offering three potential solutions, and recommending the most suitable solution. Let's look at an example in action:

- **State the problem:** "You said your biggest concern is prepayment penalties."
- **Offer three solutions:** "Here is what we can do:

    - We can put you in our no prepayment penalty product, but you will be at X rate.
    - We can put you in the six-month prepayment penalty and offer you a better rate at X.
    - We can put you in the 1-year pre-payment penalty and give you an even bigger rate discount, which would be X."
- **Recommend the most suitable solution:** "After looking at your $60,000 rehab budget and the 95-day time-on-market in your area, I think we should do the six-month prepayment option. The reason is that I can reduce your rate, decrease your holding costs, and give you the best option for the likely amount of time it will take for repairs, sell the house, and close with a conventional lender. How do you feel about that option?

Call During Term Sheet Review:

CLICK **HERE** TO REVIEW THE TERM SHEET REVIEW SCRIPT/TIPS

1. **Highlight Benefits**: Start by focusing on the loan features that address the borrower's pain point or wishlist discovered during the investigation stage.
2. **Move Forward**: Ask for feedback, address concerns, and guide the client toward finalizing the deal.

4. **Obtaining Commitment Stage**: The final stage involves closing the sale
    a. Term sheet review call- Advancing the prospect towards commitment after reviewing the term sheet:
    b. Pre-Term sheet/deal call- Advancing the prospect towards a commitment on the initial call.

The key here is to **reinforce the value of our loan product solution** and **address any remaining objections or concerns the client may have**.

c. **Need- Payoff Questions**: If you can convince the client that they need what we offer. They are most likely to close the deal for you.

Ex. A client needs to close a bridge fix and flip deal in 10 days and doesn't want an appraisal and wants high leverage.

i. Pain points- fast close, doesn't want to deal with appraisers, and wants very high leverage
ii. Determine if we have a loan product that addresses their pain points.
    1. I.e. TI location- Richer Values- Or internal values, need interior inspection for Houston Deals

d. Check key concerns are covered
i. **No unanswered questions**.
    1. If you are unsure of an answer let client know you will confirm with management and call them back asap
ii. **Take initiative** to ask if there are any other questions not addressed in the call before proceeding to closing/ securing a commitment
iii. **Reinforce**: Ask " Does everything we discussed match up with your expectations and needs?)
iv. **Additional concerns:** Repeat the concern stated to ensure you are on the same page, and offer a solution if we have one.

e. **Recap**: Summarize the benefits and give a clear picture of what has been discussed.

f. Propose a commitment
i. Ask not tell, suggest an appropriate next step.
ii. Ex. Would you like to sign the term sheet now to move your file forward towards closing?
    1. Refer to objection handling if you get any during this stage **HERE**

The goal is to secure a commitment from the prospect to move forward either by

g. Signing the term sheet and credit auth or:
h. Agreeing to a follow up call if they need time to think about it, or speak to a partner.
i. Few tidbits to thinking about here:
    i. If they need more time to think about it. Ask the client what aspect of the loan they need more time to ponder about. This usually means
        1. There is a need or pain point you have not discovered, or
        2. A question you have not cleared up yet.
    ii. Make sure you schedule it the follow up task reminder asap

Recorded Calls

Click **HERE** to listen to the recorded calls in our TEACHING TAPE FOLDER

1. Listen to each call
2. Take your notes to discuss with your training rep
3. Read notes in the comments section to see an analysis of the call for training purposes

Objection Handling Toolkit (AE + LOA)

🧩 4-Step Framework

1. **Listen** – Do not interrupt. Let the borrower fully express their concern.
2. **Understand** – Ask clarifying questions to uncover the real issue.
3. **Respond** – Reassure, solve, or escalate as needed.
4. **Confirm** – "If we resolve this, are you ready to move forward today?"

🧠 Common AE Objections & Responses

Objection	Suggested Response
"I wasn't expecting to put that much down."	"We base our loan on credit, experience, and profitability. Do you have a partner with higher credit or experience to split the down payment? If not, I can request a leverage exception." → Confirm: "If I can get X%, are you ready to proceed?"
"Why can't I get 100%?"	"100% is only for experienced borrowers in select markets with strong credit. We can explore up to 90% or allow seller seconds ."

"Fees are higher than I expected."	"Are you comparing us to a bank or another hard money lender? If it's just the fees, what number would make this work for you? I'll fight for it with my manager."
"I'm shopping around."	"Totally understand—what are you hoping to find that we haven't covered? Let's walk through what makes our offers stand out in terms of speed, leverage, and flexibility."
"I need to close in 10 days."	**Internal loan:** "If it's a Houston deal, we can do internal valuation and close fast." **Takeout DSCR loan:** "We'll need 7–10 business days after docs, appraisal, title, and insurance are in. Can you ask for an extension?"
"Let me look it over first."	"No problem—can we go over the term sheet now to clear up any questions or concerns? Sometimes it's just leverage, fees, or term holding clients back."
"Conventional lender is offering 0 points, 25% down."	"That's a great option if you're only buying one deal. But if you want to scale, our higher leverage keeps cash in your pocket. Plus, no income docs and nothing shows on credit."
"Why is there a prepayment penalty?"	"It allows us to offer lower interest rates. We also have shorter or NO prepay options available—would that help you move forward?"
"My bank offered a lower rate."	"We close in a fraction of the time, don't report on credit, and don't require income docs. We're built for real estate investors who need certainty."
"Do you report to credit bureaus?"	"Our loan will not show up on your credit."

👩‍💼 Common LOA Objections & Responses

Objection	Suggested Response

"Why do I need to resubmit docs again?"	"It may be because we need property specific documents, let me check with your assigned processor and get back with you"
"Why do I have to pay for an appraisal before docs?"	"It allows us to verify value and move your loan forward quickly. If we can use a past appraisal, we'll try to save you money."
"I submitted an appraisal already—why a new one?"	"We'll review what you sent. If it meets our guidelines, great. If not, we will let you and the appraiser know what updates if any that is needed.
"I've been waiting—what's the delay?"	"Thanks for your patience. Let me get you an update for you rom your processor on where your file is. I'll get a response to you by end of day or tomorrow.."
"Why so many forms?"	"We simplify where we can—however if there is a form or document you think is not needed please message your processor in the portal on that line item. We're here to guide you through it smoothly."
"I spoke to someone from your company before and never heard back."	"I'm really sorry about that. We take communication seriously. I'll personally make sure you get the attention you deserve going forward and provide my contact details to you after the call, you can email, call or text me at any time. Let's get back on track—do you have a few minutes to walk through where things left off?"
"I need to close in 4 days."	**If it's Tidal internal loan (loan size sub 400k, bridge, in a good market)** "I completely understand the urgency. we may be able to close that quickly assuming you get us all the documents and we rush our valuation. I'll check immediately with our team and coordinate all third-party items to see if we can meet that deadline. Let's confirm a

few details so we can act fast."

If a Houston Deal in a good market

we may be able to close that quickly assuming you get us all the documents and we may be able to skip the valuation order assuming we can get interior access to the property. Il check immediately with our team and coordinate all third-party items to see if we can meet that deadline. Let's confirm a few details so we can act fast."

If a DSCR Loan
I completely understand the urgency. For DSCR loans, we typically need about 7 business days to close once we've received a full file—including appraisal, title, insurance, and signed docs. So unforntalty we will not be able to close within 3 days. However We'll do everything we can to move fast, and I'll help coordinate the pieces immediately. Is it possible to get an extension?

Successful sales account executives suspend more time in the investigating part of a call.

SALES SCRIPTS/TEMPLATES

CLICK **HERE** TO VIEW OUR SALES CALL SCRIPTS/TEMPLATES

CLICK **HERE** TO REVIEW THE TERM SHEET REVIEW SCRIPT/TIPS

CLICK **HERE** TO VIEW OUR VOICEMAIL SCRIPTS/ TEMPLATES

CLICK **HERE** TO VIEW OUR COMMON SALES REJECTIONS SCRIPTS

A successful inbound call simply:

1. Starts with a warm welcome and introduction
2. Confirms there reason for calling (if a call back, form submission) AND reaffirms it(to ensure you fully understand)
3. Answers their questions and objections
4. Confirms their contact information
5. Wrap up the conversation by **closing the deal or establishing the next steps.**

3 Elements of an effective inbound sales call:

1.) **Determining the intention of the prospect and meeting them where they are**: Do they have a deal ready to go, just shopping quotes, or a first time investor thinking about getting into real estate etc. Discovery questions will help here
2.) **Profiling the prospect and evaluating their fit**-> Discovery questions will help here. Determine if we have a loan program that will fit their needs
3.) **Progressing the prospect through your sales process steps:** As we meet them where they are, we can recommend the next call of action via our sales process:
    a.) Discovery call about our loan programs
    b.) Gather information about the deal: over phone and or directing them to our loan quote submission page if they do not have the time.
    c.) Sending out term sheet to borrower
    d.) Calling borrower to discuss details of the term sheet, answer all objections
        i.) **Communicate communicate communicate: If you do not think you're bothering the borrower, you are not contacting them enough**
    e.) Term sheet signed-> pushed to processing-> nurture throughout processing
4.) **Using sales scripts:** Know them by heart, but do not read them, they are just a guide.

Tidbits

Make a good connection when talking to leads: Research shows you have 5 seconds to earn 5 minutes of the clients time.
Educate and Sell a Meeting: Successful calls are about educating your prospect and selling a meeting. Therefore, successful salespeople spend 54% of the call talking, while unsuccessful salespeople spent only 42% of their time speaking

Phrase(s) you should not use:

- Using "*Did I catch you at a bad time*" makes you 40% less likely to book a meeting

Phrases you should use:

- **Asking "*How have you been?*" increases success rates by 6.6X.**
- **Using "*We*" instead of "*I*" increased success rates by 35%**

Call length: It is important to nurture relationships, however time is a valuable asset. So aim to keep each call under 15 minutes (most calls should be an average 7 mins or less) Some ex. To close out a call.

- Let the client know when you are approaching 5 mins or less left. “Steve just want to let you know I have another scheduled call in 5 mints”
- I do have a conference call scheduled in 5 mins, is there any other questions I can answer for you?

Take detailed notes in Hubspot (in the call view): This helps you remember what you discussed last, when you call them again. (or helps a team member filling in for you)

ACTION ITEM- CALLS

NEW AE’S MUST DO THE FOLLOWING BEFORE THEIR FIRST LIVE CALL:

MOCK CALLS: COMPLETE 15 MOCK CALLS WITH MANAGEMENT AND AE’S

MOCK CALLS: COMPLETE 15 TERM SHEET REVIEW MOCK CALLS WITH MANAGEMENT OR AE’S

RECORDED CALLS: LISTEN IN TO 15 RECORDED CALLS IN HUBSPOT-> ADD YOUR NOTES TO THAT CALL

LIVE CALLS: LISTEN TO 15 LIVE CALLS BY DIFFERENT’ AE’S ON THE TEAM: TAKE NOTES

Reassignments

Our account executives are required to respond to clients within a 24-hour timeframe. The procedures delineate the circumstances under which reassignment of contact

owner/deal owner is mandatory, offering clear criteria for when it is necessary and when it is not.

AE not available via phone call.

Please note the person that is transferring the call should confirm if the client has been speaking to an AE. (will confirm as well via hubspot while speaking with them)

If an AE is not available to take a client call. The caller will transfer the call to an available AE if the AE insists on speaking to someone who is available.

The AE that took the call should assist the client, cc the AE that is on the deal/contact, with a recap of the discussion. The AE that is the current owner must take it from there and respond.

Client request to work with another AE

If the client requests to work with another AE, or is upset and an offer is presented to the client to work with another AE to save the relationship.

1. The current facing AE should proceed and help the client out at that time.
2. CC management and relay the details about the request from the client.
3. Management will do an audit and cc all parties involved on the reassignment

Term sheet not completed in 48 hours

We spend a lot of money on lead flow, so any term sheet that is unfortunately not priced out within 48 hours will be automatically reassigned via round robin.

Outbound Prospecting Strategy

99% of our leads have been inbound leads, however we do expect AE's to outbound prospect. And meet with a new prospect once a week in person or via meets.

- **Real estate agents/brokers**: Educating on private money and can help their clients.
- **Mortgage Brokers**: Educating them on private lending products, how it can provide additional income and an additional source for "turndowns"
    - Brokers: We love and respect our broker relationships, they are very important to us.
- **Wholesalers:** Nurture relationships with them, add value by providing private lending to their deals
    - Goal with wholesalers is to become their preferred lender (target market)
- **REI groups**-> Social and in person- AE's will get connected, add value, don't sell our product.
- **Sponsorship/Events->** Network, work the room, meet potential clients.
